## COURSE DESCRIPTION

The Thrive Method takes a multi-faceted approach toward working with individuals who have difficulty regulating their emotional state. This short course offers proven strategies and tools that can be implemented immediately over a Telehealth platform to coach parents as well as build an individualized treatment program for clients with anxiety.

This workshop is a 2-hour course open to occupational therapists, physical therapists, speech and language pathologists, and mental health professionals who work with individuals that are experiencing anxiety.

### **COURSE OBJECTIVES** At the completion of the webinar participants will be able to:

- Identify the reasons why some are more prone to anxiety.
- Identify how behavior is affected by anxiety.
- Detail how to predict and prevent anxiety.
- Demonstrate techniques that can be used over Telehealth to decrease anxiety.
- Detail a repertoire of techniques to guide parents dealing with anxious children.

## AGENDA 2 HOURS

30 min Whys and wherefores of Anxiety. Challenges Correlated with Anxiety: Relating specific underlying challenges to anxiety

1.5 hr min Guidelines for Therapists and Parents: Develop a repertoire of body and cognitive techniques to cultivate adaptive responses that can be used through Telehealth
