DESCRIPTION

This short course offers proven strategies and tools that can be implemented immediately over a Telehealth platform to build an individualized treatment program for students with vestibular dysfunction.

LEARNING OBJECTIVES

At the completion of the webinar, participants will be able to:

- Identify components of the vestibular system and what they activate in the body.
- Detail how to use the vestibular system to treat a cadre of delays and dysfunctions.
- Enumerate techniques that can be used over Telehealth to work on the components of the vestibular system.
- Detail a repertoire of techniques to guide parents dealing with OT and PT delays and dysfunctions.

AGENDA

30 min Components and wherefores of the vestibular system; challenges correlated with vestibular dysfunction.

30 min Techniques for Therapists: Develop a repertoire of techniques to treat the vestibular system that can be used through Telehealth.
