COURSE DESCRIPTION:

Understanding ATNR primitive reflex and how it lives in the lower brain centers gives us control in the integration process. Nervous system damage or challenges require neuroplasticity tools for effective treatment. This *in-depth* two-hour lecture will give you a new perspective on how to enter the central nervous system with sensory information to assist in rewiring around impairments for improved motor and learning outcomes for children with CNS dysfunction.

AGENDA: 2 HOURS

- 25 min - Evaluation – Look at the patient functionally to see the nervous system
A. Purpose for primitive reflexes
- 20 min - Causes for primitive reflex obligatory demonstration
A. How the brain relates information for survival
- 40 min - Case study, History, Evaluation
- 35 min - Treatment – Cranial nerve sensory pathways used for rewiring
A. Use of lobes for neuroplasticity advancement
B. How to naturally decrease spasticity effectively
C. Progress of the patient and D. Results

LEARNING OBJECTIVES: AT THE END OF THIS SEMINAR THE PARTICIPANT WILL BE ABLE TO...

- ◆ Detail a greater understanding of primitive reflex function
- ◆ Identify and **plan effective treatments** for pediatric patients
- ◆ Identify ways to integrate **Asymmetrical Tonic Neck Reflex** influence and increase active movements

PRESENTERS BIO:

KAREN PRYOR, PhD, PT, DPT, has a doctorate in physical therapy and has practiced for 40 years in the field. Involved with birth to three through early intervention since 1986, she developed techniques to be utilized in homes, childcare centers, and school systems to advance therapy programs in children. Karen is a sought after speaker on Neuroplasticity across the United States. Dr. Pryor serves on the Board of Leadership Interagency Coordinating Council for early intervention, appointed by Governor Bill Haslam and Governor Bill Lee of Tennessee from 2014-2024. Karen received President's award for Volunteer Service in Tennessee for the advancement of treatment of children in 2010 from President Barack Obama. In addition, she was an adjunct professor at Tennessee State University for the Occupational School (2012-2013) as well as Volunteer State University Physical Therapy Assistant School (2008-2009). Currently, she is a Certified Clinical Instructor for several additional colleges and universities (e.g., University of Tennessee at Chattanooga, Tennessee State University, Daymar College, Volunteer State Community College and Nashville State Community College). In conjunction with her teaching duties, Dr. Pryor is active on boards of Tennessee State University, Daymar College, and Nashville State Community College. With her years of experience and passion for complete wellness, Dr. Pryor assists in advancing the wider view of how therapy can be integrated from birth through a person's lifespan.
