## COURSE DESCRIPTION

This informative and enjoyable course will give participants a decided cognitive advantage for their own extraordinary brain as well as for those they serve. Join Dr. Jeanne Zehr as she offers insights into **research-based methods** that will transform your thinking for your clients, your families, and yourself based on the work of Dr. Reuven Feuerstein. **Learn how to utilize the power of mediated learning experience**, twelve associated parameters, and the development of twenty-eight cognitive functions. When combined effectively with the forces of neuroplasticity and growth mindset, cognitive results are accelerated.

## LEARNING OBJECTIVES

At the end of this seminar the participant will be able to:

1. Identify mediated learning experiences tools and apply them accordingly
2. Articulate methods to improve Cognitive functions using power tools.
3. Describe 4 methods to improve growth mindset
4. Organize an intervention plan using neuroplasticity resource based on the Feuerstein method.
