*Theramoves for full
attendance.*

*Learning outcomes/course
evaluation/post course quiz will
be completed on the computer
online . A score of 70% or more
is required to receive the
certificate of completion.*

DESCRIPTION

Have you ever thought – This child is so involved and not know where to start? We all have. This course with Karen Pryor PhD, PT, DPT, ND, CPRCS with over 40 years of experience, will assist you in the organization of evaluation skills that sequentially lead to successful treatments and goals for your patient. Journey through complex cases with the nervous system in mind. **With a clear understanding of the structure of the central nervous system, the evaluation then proceeds with clear information and reveals treatments to initiate.** Learn to simplify multiple diagnoses, treatments and goals into functional home programs for patient families. Clear understanding of the reasons for activities in the home setting is essential to assure compliance. Practice makes pathways.

AGENDA

- 8:30-9:00 Individual evaluation and treatments
- 9:00-9:30 Treat the child like their life depended on it, distraction and attraction
- 9:30-9:35 Break
- 9:35-10:05 Tone evaluation, pain assessment in children
- 10:25- 10:55 Muscular diagnosis - area affected
- 10:55-11:00 Break
- 11:00-11:30 Skeletal challenges & post-op conditions
- 11:30-12:00 Lunch break
- 12:00-1:20 Neurological system diagnosis and effects and primitive reflexes
- 1:20-1:30 Break
- 1:30-2:00 Inchstones and milestones
- 2:00-2:05 Break
- 2:05-3:30 Organization of evaluation, treatment, goals, Q & A

LEARNING OBJECTIVES

At the end of this seminar the participant will be able to:

- 1.Connect findings on evaluations that will seamlessly lead to goals and positive outcomes through Neuroplasticity techniques
- 2.Categorize symptoms through brain-based relationships in the patient.
- 3.Describe simply results of the evaluation for caregivers to enhance compliance with home programs
- 4.Differentiate and clarify treatment procedures for each child using the evaluation tools presented

PRESENTER'S BIO

Karen Pryor, PhD, PT, DPT has a doctorate in physical therapy and has practiced for 40 years in the field. Involved with birth to three through early intervention since 1986, she developed techniques to be utilized in homes, childcare centers, and school systems to advance therapy programs in children. Karen is a sought-after speaker on Neuroplasticity across the United States. Dr. Pryor serves on the Board of Leadership Interagency Coordinating Council for early intervention, appointed by Governor Bill Haslam and Governor Bill Lee of Tennessee from 2014-2024. Karen received President's award for Volunteer Service in Tennessee for the advancement of treatment of children in 2010 from President Barack Obama. In addition, she was an adjunct professor at Tennessee State University for the Occupational School (2012-2013) as well as Volunteer State University Physical Therapy Assistant School (2008-2009). Currently, she is a Certified Clinical Instructor for several additional colleges and universities (e.g., University of Tennessee at Chattanooga, Tennessee State University, Daymar College, Volunteer State Community College and Nashville State Community College). In conjunction with her teaching duties, Dr. Pryor is active on boards of Tennessee State University, Daymar College, and Nashville State Community College. With her years of experience and passion for complete wellness, Dr. Pryor assists in advancing the wider view of how therapy can be integrated from birth through a person's lifespan.
